SAFETY AND FREEDOM OF RELIGION

Dubai has been the hot spot for many students or expats looking to move somewhere they can succeed not just professionally, but personally as well. Shiny skyscrapers, picturesque beaches, career opportunities and these are not all of their merits!

Mostly all metropolises have security problems. Dubai is definitely not one of them. Dubai remains one of the safest cities in the world. An impressive number of police officers constantly patrol the city, so that you can feel safe here both day and night.

What is more remarkable – the UAE boasts many churches for foreign Christians and other confessions. Though Islam is the official religion of the UAE and is integral to the local culture, there's a freedom of religion that is guaranteed by law. Everyone here lives in a tolerant and peaceful society.

STUDENT FEEDBACK IS EVERYTHING

MADINA BAYMAMBETOVA
Master's in Global Economy student

"I enjoyed studying at University, but I always thought it was greatly important to work in a live, fast-paced environment. Job placements allow you to find out your strengths and weaknesses in a high pressured environment, juggle multiple important tasks at once and delivering them to a high standard, working with people who have different working methods to your own and handling the unexpected. I gained invaluable experience which has aided my professional growth much more than I had anticipated from my placement year. This experience has changed my career ambitions, shaped me into a much stronger individual. I want to say Thank You to Synergy University, it was the best 4 years in University, I get good experiences and I met a lot of good friends."

YENLIK BOKINA
Bachelor's in IT student

"This year starting from April I have been doing an internship at EnLau Electric Company, Kazakhstan. It has been very interesting for me and I have been working as an IT manager. There were many exciting duties in my responsibilities, such as maintaining and configuring LAN, securing the internal processes, creating the website for employees to optimize routine tasks and etc. The skills that I gained during this internship are very important for me, because besides acquiring IT competence, I've got also communications skills that will be very helpful in the future. I would like to thank EnLau Electric, for the warm welcome and for making me feel like I'm part of their big family and thank the University for providing me the necessary knowledge to have no doubts about my speciality."

SOFIA AKINSHINA
Bachelor's in Business Administration student

"When I joined the university all I knew is that someday after I graduate I want to work in a big hotel, little did I know that even before I graduate, I will get to experience it. Synergy University has not only taught me about hotel and restaurant management but also let me experience it by giving the opportunity to complete internships at some of the best hotels in the UAE! Before graduating I have already been exposed to the real work life and this experience will help me in the future as well after I graduate!"

HUSSAIN MOHAMMED ABDULLA JASSEM DAHKOONI
EMBA student

"There are many online degrees that I could have chosen from, but why I chose Synergy University's EMBA program is because of the AMBA accreditation. This course is helping me to view business in a new way and is helping me progress in the workplace as well. The experienced faculty also makes the experience more interesting as we get to learn not just the course material but also from their experiences. The chance to network with the others in the class and attend master classes in companies that have partnered with Synergy poses a great learning experience."

SHIVAM VAYA
Bachelor's in Hospitality Management

"The hospitality sector is booming in the UAE and SUD offers the best Hotel and Restaurant management course in UAE! They are teaching us everything we need to know and also letting us experience what it is like working in hotels first-hand. I am currently in my 3rd year and have already been able to gain work experience through the career center while studying which will be super helpful for me when I graduate!"

ARRIVAL GUIDE

There are some helpful tips and information for new International students

- ✓ To arrive at the university you should cover the tuition, the registration and visa fee as well as submit all the necessary documents to open a student visa
- ✓ Buy tickets only after receiving official permission from the university. In case if you arrive without a permit, be ready that you will have to make an additional payment of 200\$ for changing the visa status
- ✓ We recommend booking a hotel room for 1-2 days while you decide on the accommodation option
- ✓ You should take into account that accommodation and tickets are covered by students themselves. Living expenses including food, communication and transport can cost up 550\$ a month

ARRIVAL DAY

We recommend all international students not to miss the official Arrival Day so you will be able to receive all necessary welcome information on time. University staff, student mentors and will be on hand throughout the day to welcome students and answer any questions.
